

This form is designed for you to use in the forest to allow the collection of information about a stand of trees. Please provide as much information about the site and the trees as you can but don't feel that you have to enter information for every data field.

Forest Name	
Stand or Compartment Name	complete one form for each stand or compartment

Environment data

This relates to the stand or compartment named above. Complete one form for each stand or compartment.

Location	When you enter the data online you will be asked to outline the stand on an online map.					Drainage	unknown	poor	average	good					
Altitude (m)						Information source	anecdotal		records	site assessed					
Slope	flat	gentle	steep			Aspect	N	NE	E	SE	S	SW	W	NW	-
Soil	unknown	loam	brown earth	clay	other	Experimental field trial (official)	yes				no				

Tree Data

Complete one of these tables for each species that you wish to record in this stand or compartment.

Species						Date Planted (P year)					
Origin	e.g. provenance, clone, variety										
Stocking density (trees per ha)						Composition in stand (%)					
Tree Height (m) (average for stand)						Yield Class (m³ ha per yr)					
Stem diameter-dbh (average for stand in cm)						Registered Seed Stand	yes				no
Form (average for the stand)	straight	bent	swept	forked	open grown	split	hollow				
Thinnings	notes/comments										
Markets supplied	notes/comments										

Species						Date Planted (P year)					
Origin	e.g. provenance, clone, variety										
Stocking density (trees per ha)						Composition in stand (%)					
Tree Height (m) (average for stand)						Yield Class (m³ ha per yr)					
Stem diameter-dbh (average for stand in cm)						Registered Seed Stand	yes				no
Form (average for the stand)	straight	bent	swept	forked	open grown	split	hollow				
Thinnings	notes/comments										
Markets supplied	notes/comments										

Species		Date Planted (P year)			
Origin	e.g. provenance, clone, variety				
Stocking density (trees per ha)		Composition in stand (%)			
Tree Height (m) (average for stand)		Yield Class (m ³ ha per yr)			
Stem diameter-dbh (average for stand in cm)		Registered Seed Stand			yes no
Form (average for the stand)	straight	bent	swept	forked	open grown split hollow
Thinnings	notes/comments				
Markets supplied	notes/comments				

Comments/Sketch map

Please remember to take a photograph that you can upload when you enter this data online
